EXPERIENCE

liambeckman.com — personal website and portfolio

JavaScript, HTML, CSS, Jekyll

github.com/lbeckman314/website

A website that presents a variety of my projects and software development tools, including a Git server and an instance of Jenkins continuous integration service. The website and all projects are hosted on a personal single-board computer (Raspbian on RPi3 Model B).

[biblioteca](#) — relational database web app

MariaDB, JavaScript, HTML, CSS

github.com/lbeckman314/biblioteca

An hostable database designed to store information of ones favorite programs. Allows users to keep track of what language each program was written in, the version number, it's purpose, and original authors and contributors. Serves as a rudimentary search engine for code and projects that one has encountered, and want to keep accessible in the future.

[withfeathers](#) — poetry web app and shell program

Python, Flask

github.com/lbeckman314/withfeathers

Fetches, parses, and selects a random poem by Emily Dickinson from Project Gutenberg.
